Whether you are a veteran preacher with years of experience or a young preacher just starting out, this seminar will sharpen your skills, deepen your convictions, and pump life into your preaching. Come and spend a day with one of Australasia's leading preachers and teachers of preaching as we explore together three vital questions:

Why do we preach? (Is it worth the effort?)
What makes a sermon good (or bad)?
Where is preaching headed? (Does it have a future?)
